Publicis.Sapient, India , Senior Experience Technology (L1)

JUNE 2014 - JUL 2016

IEA & DEXA - Integration with AEM

IEA is a new approach to deliver content driven experiences; which also introduces a new architecture and delivery model for how the experience is built and integrated. DEXA is a frontend decoupled architecture.

- Involved in core development of the architecture
- Developed build package generation using webpack, grunt and yeoman generator
- Developed Handlebars interfaces with an understanding of UI design principles and object-oriented program development.
- Implemented Jasmine framework and karma server to write and test the unit test cases for code.
- Built single-page applications with JavaScript on a custom-built IEA framework
- Consulted and documented UI best practices and code standards.

Razorfish Technologies, India , Software Developer

OCT 2012 - MAY 2014

- Developed fully functional responsive prototypes based on Business Requirements using HTML5, CSS3, JavaScript, jQuery and angular JS.
- Implemented plug-ins to extend application functionality and JavaScript module patterns using asynchronous script loading.
- Implemented Page Optimisation techniques for web pages, Best Practices in Javascript and handled Cross Browser compatibility issues
- Worked on various environment such as groovy & grails, ruby on rails, hibernate, vTiger, Magento

Cheese Corporate Care, India , Software Developer

MAY 2012 - SEP 2014

- Developed user interface from UI designs (PSD) for cross-platform devices and website layout for the user experience using CSS3 and HTML5
